JIMS Advantage

We like what we do

At JIMS, we believe that we are not just nurturing students; we are creating leaders of tomorrow. Hence, we first identify the abilities of students and then nurture them with our creative and analytical tools hereby empowering them with the right knowledge to take tomorrow's corporate world head-on. Not merely emphasizing on the theoretical learning, we encourage our students to take responsibilities and decisions that shape their future.

We stir and select the best

JIMS has a rigorous selection procedure that screens and filters to get the best brains in the country. We hold group discussions and personal interviews. These are conducted by experts from industry and academia. We thus emphasize on selecting only those candidates who possess inherent managerial and leadership prowess.

We don't just teach, we give a complete learning experience

Our curriculum stretches its reach to considerable breadth and depth. It facilitates a learner to get equipped with academic knowledge as well as its practical relevance. It offers an extensive learning experience through a plethora of channels, including lectures, case studies, projects, workshops, seminars, and outdoor activities, which promise an overall development of students. We enhance students' familiarity with our standards and culture, thus making our curriculum a platform to liberate and excel rather than a restrictive classroom activity.

Our dedicated faculty is our Strength

Our faculty possesses a blend of academic and industry experience which helps in disseminating the knowledge to the students, through both classroom sessions and independent study activities.

We are a pool of resources for the renowned companies

Over the years, JIMS has consistently proved to be a reservoir of talent for the best companies. Corporate giants like ICICI Bank, HDFC Bank, Nestle, Deloitte, KPMG and Tata Consultancy Services, to name a few, have repeatedly visited our campus for recruitments and many of our students get pre-placement offers.

We take pride in the facilities that we offers

Our conveniently located campus, ventilated classrooms, state-of-the-art auditorium and conference rooms, wellstacked libraries, well-equipped computer labs and a vibrant cafeteria make us a complete institute.

Director's Message

Dr. Pooja Jain
Director

We are proud to have completed 25 years of our establishment. JIMS has come a long way from its humble beginning and has carved a niche for itself among the top management institutions of India.

Functioning of our Institute is guided by its vision, mission and program objectives which have been designed by all its stakeholders through a structured participative process. There is an increased emphasis on innovative curriculum, interactive pedagogy, intense industry-interface and global alliances aimed at building and enriching the competencies of its faculty and students.

Our faculty is continuously engaged in academic research, corporate trainings and industry consultancy assignments for keeping abreast with times. Our students are selected through a rigorous process for all programs offered and they are encouraged for experimenting new ideas, pursuing entrepreneurial aspirations, undertaking industry projects and enhancing their knowledge base through various academic and cultural activities. Most of our Alumni have received recognition in the business world as corporate leaders and are placed in globally acclaimed organizations handling senior management roles and leadership positions.

JIMS works like a family and depth of caring that the JIMS community has for each other and the time that we willingly choose to spend with one another defines the institute. Strong connection and compassion is the spirit of the institute that we hope to endure with time.

On behalf of JIMS, I extend my invitation to all stakeholders for a mutually beneficial long term association.

“The phrase ‘nature and nurture’ is a convenient jingle of words, for it separates under two distinct heads the innumerable elements of which personality is composed. Nature is all that a man brings with himself into the world; nurture is every influence without that affects him after his birth.”

-Francis Galton

It has spacious rooms with windows opening into balcony, other facilities include common room and dining room, Apart from the infrastructural soundness, it provides sufficient scope for interaction and relationship-building. It provides a congenial atmosphere that gives the new students full scope to know their seniors, learn from them, leverage their knowledge and build lasting relations with them. Students of JIMS.... Now GEMS of the corporates....

We shortlisted JIMS for hiring for our Young Leaders Program based on the institute's credentials and a thorough research by our Human Resources team. I am happy that last year, a couple of JIMS students passed our qualifiers and today they are proving to be among the best campus hires for us. I sincerely hope that JIMS keeps up the standard of their student intake, their efforts in giving all inputs needed to produce well-rounded personalities, not for the industry. We will be happy to come back to JIMS for campus recruitment every time we go for fresh MBA hires. All the best!

I am pursuing PGDM from JIMS, Rohini and would like to add that the Institute and the faculty members are very student friendly and approachable in nature. The faculty members make sure that all the sessions are interactive and interesting in nature. They use a lot of case studies, discussions, role-plays and many innovative ways of evaluation.
